RISK RATING

The level of risk (volatility) is that of a concentrated equity fund. The risk of a permanent loss of capital should, however, be limited by the fund's strategy.

ABOUT BARRAGE CAPITAL

Barrage Capital is a Canadian investment management firm. It was established by four investors who share the same investment philosophy.

Commonly labeled "Value Investing", this approach was first taught at Columbia University in New York in the late 1920s. The success and reputation of former students helped to popularize this approach. Surprisingly, few managers in Quebec are interested in applying these concepts. Barrage Capital offers its clients an alternative to conventional asset management.
